## 1OBJECTIVE

---

Passionate fourth-year Information Systems student and full-stack web developer with over two years of experience in building dynamic web applications using React, PHP, and MySQL. Seeking opportunities to leverage technical expertise and problem-solving skills to deliver innovative solutions for clients and organizations.

## 2EDUCATION

---

### Bachelor of Science in Information Systems

Expected June 2026

Addis Ababa University, Addis Ababa, Ethiopia

*Relevant Coursework:* Web Development, Database Management, Data Structures, Algorithms, System Analysis & Design, Operating Systems, Information Security, E-Commerce

## 3SKILLS

---

- **Programming Languages:** C++, C#, Java, PHP
- **Web Development:** HTML, CSS, JavaScript, React.js, Bootstrap, PHP, MySQL
- **Computer Science:** Data Structures, Algorithms, System Analysis & Design, Operating Systems, Computer Architecture, Information Security, E-Commerce
- **Languages:** Amharic (Fluent), English (Good)
- **Tools:** Git, VS Code, XAMPP, Figma

## 4EXPERIENCE

---

### Front-End Developer Intern, Codveda

June 2024 – August 2024

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js, improving user experience for client projects.
- Collaborated with design teams to implement pixel-perfect UI designs, enhancing accessibility and performance.

### Front-End Developer Intern, Efuye Gela

January 2024 – March 2024

- Built dynamic front-end solutions with a focus on cross-browser compatibility and performance optimization.
- Integrated APIs to enable seamless data flow between front-end and back-end systems.

## 5PROJECTS

---

### PhoneSell E-commerce Platform

[GitHub](#)

- Designed and developed a full-stack e-commerce website for mobile phone sales using React.js, Node.js, MongoDB, and Express.js.

- Implemented user authentication, product management, shopping cart, and payment integration for Admin, Seller, and User dashboards.

### Adheno Non-Profit Website

[GitHub](#)

- Created a responsive website with donation system, event management, and volunteer registration using HTML, CSS, JavaScript, and PHP.
- Optimized site performance, achieving a 20% reduction in load time through efficient coding practices.

## 6CERTIFICATIONS

---

- Full Stack Web Development, FreeCodeCamp (In Progress)
- Data Structures & Algorithms in JavaScript, FreeCodeCamp (In Progress)
- Front-End Libraries, FreeCodeCamp (In Progress)
- Responsive Web Design, FreeCodeCamp

## 7ADDITIONAL INFORMATION

---

- **Passions:** Coding, Problem Solving, Listening to Stories, Audiobooks, Exercise
- **Freelance Work:** Available on Upwork for web development, resume writing, and technical writing projects
